**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 22-42.

This application is in condition for allowance except for the presence of claims 22-42 directed to an invention non-elected without traverse. Accordingly, claims 22-42 have been cancelled.

***Allowable Subject Matter***

Claims 1-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1-20, there is no teaching or suggestion in the art of record disclosing a magnetic element comprising a spin depolarization layer being configured to depolarize at least a portion of a plurality of electrons passing through the spin depolarization layer in combination with all other structural limitations of claim 1.

Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-20.

Regarding claim 21, there is no teaching or suggestion in the art of record disclosing a magnetic element comprising all of the limitations of claim 21 in combination, wherein the first ferromagnetic layer is doped with at least a first material such that a first spin diffusion length of the first ferromagnetic layer is reduced to be less than the thickness of the first ferromagnetic layer. Therefore, independent claim 21 is deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
